

# Stratford FESTIVAL

## PARKING PROCEDURES FOR MOTOR COACHES

### Festival Theatre

- Load and unload in Upper Queen's Park (Richard Monette Way).
- Do not remain in the loading zone longer than 15 minutes. Buses doing so will be ticketed. Please be considerate of other groups in this busy area.
- Please do not block the thoroughfare.

### Tom Patterson Theatre

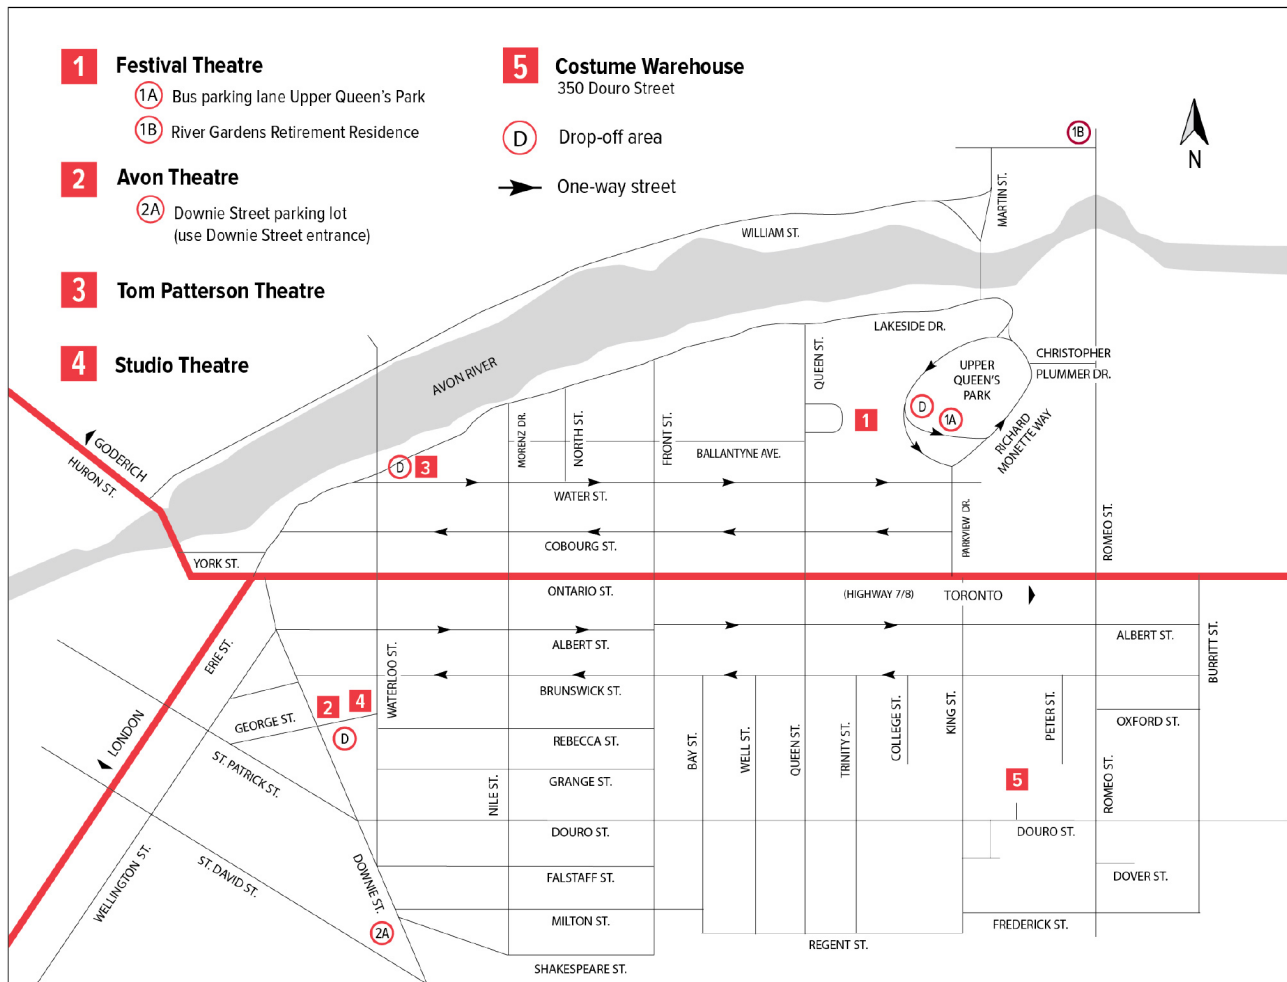

- Load and unload in the circular drive in front of the theatre.
- Park in the bus parking area in Upper Queen's Park.

### Avon Theatre

- Do not load/unload or park in front of the Avon Theatre.
- Refrain from stopping/parking in the city transit bump out across from the Avon Theatre.
- Loading zones are available on the north side of George Street, right beside the theatres.
- If lot 2A is full, please proceed to lot 5 at the Costume Warehouse.
- Please note that backing up on George Street is strictly prohibited, to prevent noise disruptions in the auditorium. Please circle the block, rather than reversing.

### Attention Bus Drivers:

Excessive engine idling contributes to smog. Stratford by-law 133-2001 prohibits the idling of vehicles for more than five minutes (up to 10 minutes for tour buses with air-conditioning equipment) while the vehicle/motor coach is parked or standing in the city of Stratford. When unloading and loading your passengers, and parked during the performance, please turn off your engine.

Public washrooms for groups are available from 9 a.m. to 9 p.m. on the east side of the William Allman Arena, located on the corner of Lakeside Drive and Morenz Drive, as well as in the city facilities in Upper Queen's Park adjacent to the band shell.
